THE MINISTER OF STATE IN THE MINISTRY OF FOOD AND CONSUMER AFFAIRS (SHRI SATYAPAL SINGH YADAV): (a) and (b) due to untimely rains during the sowing seasons, the Ministry of Agriculture had initially estimated that the production of wheat during 1997-98 Rabi season was likely to be 64.51 million tonnes as against the production of 69.27 million tonnes during the previous year. Government had therefore, decided to import upto 20 lakh tonnes of wheat during 1998-99, against which the STC finalised contracts from import of 15 lakh tonnes (± 5%) of wheat from Australia. A total of 14.15 lakh tonnes of wheat has arrived in India against the above contract.

(c) and (d) Presence of some weed seeds was detected in the Australian wheat. Such weeds are in integral part of any foodgrains harvest and it is not unusual to detect weed seeds in any bulk import of foodgrains. The Australian wheat conforms to the provisions of the contract and the specifications laid down in the Prevention of Food Adulteration Act and is fit for human consumption. Government has advised the FCI to issue the imported wheat stocks to the State Governments against their monthly allocation for distribution through PDS exclusively in non-wheat growing areas. It has been decided to release additional quantities of wheat to the State Governments/UT Administrations for open sale ensuring that in case of open market sales, imported wheat goes only to the Roller Flour Mills.
